Sustain ETSID Show and Award
Best sustainability projects from the ETSID

more on: sustain.etsid.upv.es
Context: Sustain ETSID began in 2005. Through series of events and activities it aims to inspire, encourage and support students and staff from different departments across the college to embrace sustainability thinking in their work.
Project: Each year, graduating or master students from across the ETSID are invited to submit work that focuses on social or environmental issues. Selected projects are exhibited at the Sustain Show during the Valencia Design Week with 4 Awards announced.
Design Role: working with various UPV Faculties and Departments - from Product Design to Vehicle Design, to Aeronautical or Architecture, from Agricultural to Painting, Sustain ETSID brings students from different disciplines together, offering them a range of support.
